EXPERIENCES

- In July 2019 I joined a **summer internship at** *Accenture* which not only brought me good technical and adaptability skills when working in different contexts, but also the ability to organize and work in a group project.
- Since 2017 I have started working in conferences and events as a **Host and Promoter at** *Springevents*, giving technical support and helping its organization.
- I also have good group and team spirit with different types of ages, through my experience as a *PRAZNIK* **monitor**, where I developed good interpersonal skills and initiative spirit, and as a **volunteer at** *Junior Achievement Portugal* where I lectured entrepreneurship programs to children, and **at** *Fundação S. João de Deus* where I gave computer classes to elderly people in order to improve their quality of life.

SKILLS

- **Programming Languages:** Java, SQL, VBA
- **Modeling Languages:** Enterprise Architect, ArchiMate, SAP PowerDesigner
- **ETL Tools:** Pentaho Data Integration, Geokettle
- **Others:** Agile, Scrum, JIRA and Confluence (Software that support Agile management), Microsoft Office (Word, Excel, PowerPoint, Teams and Access), Microsoft Project, Git, Eclipse
